

smartglass

Constance Éphelia Hotel, Seychelles

Opening: 2013

SmartGlass Volume: over 250m²

We are proud to announce that Privacy Smartglass has been installed in 48 guestrooms of the 5-star Constance Éphélia Resort located at the Port Launay National Marine Park in Seychelles.

The electronically switchable privacy glass acts as a screen between the shower and the guestroom, with three panels wrapping around the shower tray to allow unobstructed views of the balcony and the Indian Ocean.

Privacy Smartglass combines the functionality of an opaque wall with the style and lighting of clear glass allowing for an innovative and intriguing use of space.

Smartglass worked directly with the hotel to develop a design that matched their vision for these luxury suites.

Philippe Offre, Group Technical Manager, Constance Hotels and Resorts (Seychelles), said: "For this project we wanted to create a feeling of space by designing a fully open bathroom. However, we did not want to sacrifice our guests' privacy and therefore Privacy Smartglass provided the ideal solution – privacy at the flip of a switch."
