SQUARE
HOTEL
LONDON
SW1**

Eccleston Square Hotel

London, England

39 Guest rooms

Opened: 2011

SmartGlass Volume: 155m²

Design by Woods Bagot

SmartGlass was used in this hi-tech, ultra modern boutique hotel in London's prestigious Belgravia to separate the bathroom and bedroom, without compromising privacy or light.

SmartGlass combines the functionality of an opaque wall with the style and lighting of clear glass allowing for an innovative and intriguing use of space.

The nature and size of boutique hotels asks for us to look at efficient uses of space and light.

The design by Woods Bagot provided a sleek and modern solution that opened up the guest rooms to natural light whilst harmonising with the overall theme of the hotel.
