UNPARALLELED QUALITY

From the proven, established specialist.

- ✓ Process our own glass and craft each unit in our purpose-built facility.
- ✓ Premium materials, expert processing and rigorous quality control.
- ✓ Every aspect under our control so that we can deliver on our promises.

“ Smart Glass provided the ideal solution – excellent quality and perfect privacy at the flip of a switch.

Philippe Offre, Group Technical Director,
Constance Hotel & Resorts, Seychelles

FULL TECHNICAL ASSISTANCE & SUPPORT

From concept to installation.

- ✓ We deliver solutions – with the specialist guidance, support and back-up you need.
- ✓ No matter the location, complexity or scale of your project – we'll deliver the switchable glass solution you can trust.

“ Extremely proactive company, never fail to impress on design and delivery. Their flexible approach and acute attention to detail helps us deliver projects without compromise here in the UK and abroad.

David Ardill, Partner,
Sheppard Robson, London, UK

DESIGNED & MADE-TO-ORDER

Exactly what you need.

- ✓ We'll examine your project and guide the specification as needed.
- ✓ We control the full process from start to finish and can easily tailor to your unique needs.

“ Smart Glass is an extraordinary partition system. A unique product that solves a wide range of design issues.

Justin Cratty, Associate
Gensler, London, UK

Privacy Smart Glass

Unparalleled quality, delivered globally, from the specialists in switchable glass.

Privacy Smart Glass Product Options

- Wide range of sizes, thicknesses and glass colours.
- High temperature, infrared resistance, bullet proof.
- Double or triple glazed insulated units.
- Remote switching.
- Curved glass.
- And more options.

Greatest clarity, consistency & stability

Low iron, premium float glass and premium, German made, Polyvinyl Butyral (PVB) for greater clarity and stability. With the world's most advanced Polymer Dispersed Liquid Crystal (PDLC) for reliable, consistent performance.

Finest manufacturer & finish

All glass processed and finished in-house using the latest machines and furnaces. Assembled in a climate-controlled, clean room environment. All glass tempered and polished as standard. Precision packed for global shipping.

Reliable, consistent operation

Every unit is subjected to a rigorous set of quality checks including extensive, automated, electrical tests to ensure reliable, consistent operation. Our advanced electrical controllers deliver the highest level of clarity and provide for several fail safes that can automatically shut down and protect the product, prolonging product lifespan.

Exceptional UV block

Privacy Smart Glass provides up to 99.5% protection from damaging UV rays.

Longer life

Our raw materials, processing, finishing, testing and electrical controllers provide a higher quality, more stable, longer lasting product – the reason we can offer our comprehensive 5-year guarantee.

Solar Smart Glass

Unparalleled control of solar glare and heat.

Solar Smart Glass Product Options

- Wide range of sizes, thicknesses and glass colours.
- Heat strengthened, fire-rated, tempered, bullet resistant.
- Curved glass.
- Manual or automatic control.
- And more options.

Complete control

Manual and automatic tuning and variable / dimmable functionality for precise, unrivalled control of solar glare and heat.

Advanced materials

Made-to-order panels featuring Suspended Particle Device (SPD) film between 2 or more sheets of glass.

Finest manufacturer & finish

All glass processed and finished in-house using the latest machines and furnaces. Assembled in a climate-controlled, clean room environment. All glass tempered and polished as standard. Precision packed for global shipping.

Reliable, consistent operation

Every unit is subjected to a rigorous set of quality checks including extensive, automated, electrical tests to ensure reliable, consistent operation. Our advanced electrical controllers provide for several fail safes that can automatically shut down and protect the product, prolonging product lifespan.

Exceptional UV block

Solar Smart Glass provides up to 99.5% protection from damaging UV rays.

Reduced costs

Reduced thermal transmittance through the façade is proven to help decrease associated HVAC costs.

Longer life

Our raw materials, processing, finishing, testing and electrical controllers provide a higher quality, more stable, longer lasting product – the reason we can offer our comprehensive 5-year guarantee.

Blackout Smart Glass

A unique solution from Smart Glass delivering complete privacy and light control.

Blackout Smart Glass Product Options

- Wide range of sizes, thicknesses and glass colours.
- X-ray, bullet resistant.
- Tinted, curved glass.
- Remote controls, wall controls, movement sensors, timers, light sensors.
- And more options.

Advanced materials

Made-to-order panels featuring Suspended Particle Device (SPD) film between 2 or more sheets of glass.

Finest manufacturer & finish

All glass processed and finished in-house using the latest machines and furnaces. Assembled in a climate-controlled, clean room environment. All glass tempered and polished as standard. Precision packed for global shipping.

Reliable, consistent operation

Every unit is subjected to a rigorous set of quality checks including extensive, automated, electrical tests to ensure reliable, consistent operation. Our advanced electrical controllers provide for several fail safes that can automatically shut down and protect the product, prolonging product lifespan.

Complete control

Two film technologies combined in one laminate panel allows four distinct states: clear, opaque, solar, blackout. Variable / dimmable functionality allows for complete control.

Exceptional light block

Instantly block out 99.5% of light that passes through a window.

Total UV block, combined with infrared blocking properties

Blackout Smart Glass provides up to 100% protection from damaging UV rays and also features infrared blocking properties.

Longer life

Our raw materials, processing, finishing, testing and electrical controllers provide a higher quality, more stable, longer lasting product – the reason we can offer our comprehensive 5-year guarantee.

ABOUT

The specialist in switchable glass since 2001

Unparalleled experience, world-class quality, and a specialist team.

We control every aspect of our manufacturing – to ensure we deliver a quality, made-to-order solution you can trust. All our glass is processed and finished in-house. We process low iron, premium quality float glass to achieve the highest levels of clarity and consistency. We use only the finest materials, with each unit hand finished and checked, and shipped with our comprehensive 5-year guarantee.
